Most Comprehensive Society Management Solution

crafted by NineSolutions Pvt Ltd

Ediface is the next generation integrated society management system. Using the many years of accumulated knowledge and experience Ediface has been developed from the ground up and delivers a system with the flexibility to meet changing market needs.

What is Ediface

Ediface is cloud based system and has automated functionality for generating monthly maintenance and member can view their bill status. Ediface allows societies to create user accounts for each member in two ways as a board member or general member. When member account is created, the system sends an automated email to the member whose account is created. This System allows members to login with their own account and get updated with society happenings.

It's easy for the board member to manage all society related tasks at one place. Members can write blogs, suggestions, complaints as per their wish. You can view all your service provider at one place so, you can call any service any time.

Why choose us

Ediface, our complete society housing management solution, offers; providers of all sizes a scaleable, feature-rich suite to transform operations and service delivery. Ediface is an affordable user-friendly platform that provides solutions for managing residence life without the headaches. The technology provides the capability to manage day-to-day housing activities to the administrator. We are proud to offer integrated functionality across housing and asset management, contractor solutions, financial management and tools to improve your customer satisfaction all within one system, all from a proven.
